

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A method for generating a repair order, comprising:

 scanning a vehicle identifier on a vehicle;

 transmitting the vehicle identifier over a wireless communication link;

 retrieving data associated with the vehicle identifier ~~in a memory device~~ by
querying a database with said vehicle identifier;

 generating the repair order from said data; and

 transmitting the repair order to a portable device over the wireless communication
link.
2. (Canceled).
3. (Original) The method of claim 2, further comprising displaying the repair order on a display screen of the portable device.
4. (Original) The method of claim 1, wherein the vehicle identifier comprises a Vehicle Identification Number (VIN).

5. (Original) The method of claim 1, wherein said scanning the vehicle identifier comprises scanning a bar code indicative of the vehicle identifier.
6. (Canceled).
7. (Original) The method of claim 6, wherein the database includes production information associated with the vehicle identifier.
8. (Original) The method of claim 6, wherein the database includes customer information associated with the vehicle identifier.
9. (Original) The method of claim 6, wherein the database includes warranty information associated with the vehicle identifier.
10. (Original) The method of claim 6, wherein the database includes vehicle service history information associated with the vehicle identifier.
11. (Original) The method of claim 1, further comprising: entering user input information into the portable device; and transmitting said user input information over the wireless communication link.

12. (Currently Amended) The method of claim 11, ~~further comprising generating a new repair order in response to said user input information wherein said~~ generating the repair order from said data further comprises generating the repair order responsive to said user input information and said data associated with the vehicle identifier.

13. (Original) The method of claim 11, further comprising updating the memory device with said user input information.

14 – 31 (Withdrawn)
